Database

MySQL

♥ Personal Project

#CAMPCHICKENS2015 Google Play

Mobile application made for the training camp of my triathlon club.
This application gave access to the list of things that had to be brought, contact information and the map of the bike ride.
Technologies: PhoneGap, HTML5, CSS, JavaScript, Google Maps API

⌚ Free Time

Spend time with my friends   Practice triathlon in a club

Play drums and guitar   Go to software meetup
